

AI Powered Dash Cam Tracking For Maxim's fleet

Enhance safety and reduce risks with industry-leading AI accuracy, detecting unsafe driving in real-time for proactive coaching and fleet-wide visibility.

Key Features

- ✓ **Incident Capture:** Locks and saves footage before, during, and after a crash
- ✓ **Secure Cloud Storage:** Uploads critical footage instantly to fast-track insurance claims
- ✓ **Dual-Facing HD Video:** Captures crisp footage of the road and cabin simultaneously
- ✓ **Live Stream & Calls:** Allows dispatch check in and communicate hands-free via the camera
- ✓ **Low-Light Optimization:** Uses night vision and wide dynamic range to beat glare
- ✓ **AI Alerts:** Flags distracted driving, tailgating, and lane drifting instantly
- ✓ **AI Voice Coaching:** Delivers automatic safe-habit updates directly to the driver as audio digests.

Key Tier Differentiators

CATEGORY	ZENCAM LITE	ZENCAM PLUS
